

# Introduction to Woodworking

2014 - 2015

Mr. Barron

*	Introduction / Project Planning / Safety / Equipment Introduction Safety Demos.	
1	Introduction to Cabinetmaking	page 13
18	Health and Safety	page 267
10	Wood Characteristics	page 107
19	Ordering Materials and Supplies	page 281
45	Preparing Surfaces for Finish	page 701

A wood project (selected by the Instructor- with Input from the class) made from northern white pine or poplar will be the vehicle to gain the skills and experience necessary in the wood shop. Plywood's may also be used in construction.

A career will also be explored as a possible choice for employment by the student. This will be done in the form of a research paper.
