

# WOOD TECHNOLOGY

COURSE OUTLINE  
Somerset High School

Mr. Barron

6	Production Decisions	p.67
18	Health and Safety	p. 267
29	Joint Making	p. 481
33	Gluing & Clamping	p.555
38	Case Construction	p. 613
39	Frame and Panel Components	p. 629
41	Doors	p. 655
42	Drawers	p.667

A wood product selected by the students but adhering to criteria provided by the instructor, will be the main focal point of all the chosen units of study. The units will be incorporated into the products as the building process takes place. Material costs are the responsibility of the student and if materials are going to be secured from Mr. Barron the lumber bill must be Paid no later than 2 weeks after construction begins.

Two technical reviews of an article from a woodworking trade journals will be done. This will be done in written form and also shared with the class in the form of an informal oral report, sharing what you have learned about the article. This way we share the wealth and everyone benefits from your new knowledge and information.

The textbook to be used is Modern Cabinetmaking by William D. Umstattd and Charles W. Davis. The Goodheart-Willcox Company, Inc. copyright 2005
